

Standing Councils, Commissions, and Committees 2022-23

Revised 10/28/22

Preamble

Education requires the oversight and management of a multitude of tasks and assignments. Standing committees are an important part of shared governance at Oregon Tech and offer the opportunity for faculty, staff, and students to assist administrators with those tasks by providing input, recommending outcomes, and participating in operational decisions. In addition to committees appointed directly by the Faculty Senate and *ad hoc* committees created for special purposes, the Oregon Institute of Technology recognizes a number of standing committees, commissions, and councils that provide continuous support for institutional or academic leadership. Each assembly reports to one of the University's Vice Presidents or to the President. These administrators recommend membership and service on the committees reporting to them to the President for approval. Recommendations for membership and service on the committees reporting to Faculty Senate are made to the President of the Faculty Senate for approval. Oregon Tech is committed to diversity, equity, and inclusion in committee representation.

Two types of committee appointments are recognized:

- Appointment to a committee because of job title or position (e.g., Vice Provost on President's Council).
- Appointment for a rotating term.

The term of service varies according to appointment type:

- Committee members appointed because of job title or position typically serve while holding the position, dependent on the purpose for the position to serve on the committee.
- Student appointments serve for one-year renewable terms.
- Committee members appointed for rotating terms typically serve three years, unless otherwise specified within the committee description.
- Committee members appointed for rotating terms in elected positions (e.g., Faculty Senate) serve according to their elected term within the assembly.
- Members may be reappointed for an additional three-year term (six years total), but it is the intention of this process to encourage broad participation and to allow faculty and staff to bring fresh perspectives and skills to their committee assignments. Members can be reappointed after a term off the committee.
- Appointed members have staggered terms to ensure some membership continuity.

Individuals can request consideration for membership on a particular committee at any time by petitioning the Provost or President of the Faculty Senate, for the committees reporting to administrators and Faculty Senate, respectively. The Office of the Provost will affirm membership and notify appointees for the succeeding academic year before the start of the fall term.

The academic community recognizes the importance of committee assignments and the role it plays in shared governance. Committee members are expected to represent their constituency and keep them informed, solicit feedback, and provide that to the committee as appropriate. Members who

are regularly absent can be removed from a committee, at the request of the committee Chair, to the appropriate reporting Vice President. Likewise, a Chair who is deemed inefficient and unable to organize committee business can be removed at the request of committee members, to the appropriate reporting Vice President. Assignment to a committee should be regarded as a privilege and responsibility.

Council, commission, and committee chairs/co-chairs are required to submit a brief summary report at the end of spring term to provostoffice@oit.edu. The Provost's Office will collect and distribute the reports to the President and appropriate division leaders.

Title IX Steering Committee

The Title IX Steering Committee (Committee) is a collaborative and multi-disciplinary team charged with advancing a culture of respect, responsibility, and safety at Oregon Tech. The Committee provides the Title IX Coordinator with recommendations on promoting a positive campus culture and in identifying and deploying effective measures to prevent and address sexual misconduct, including sexual assault, sexual harassment, domestic violence, intimate partner violence, dating violence, and stalking. The Committee offers recommendations and guidance to the Title IX Coordinator to inform policy and procedures, identify services, and ensure positive compliance with Title IX and other laws, regulations, and policies related to sexual and gender-based issues. The full Committee meets at least quarterly and when needed. The subcommittees meet monthly, except on months when the full Committee meets.

Core Committee Responsibilities

The Committee will:

- Discuss ways to advance systemic change and overall improvements to the campus climate relating to Title IX protections, rights, and responsibilities.
- Assist in the development and implementation of an overarching compliance plan consistent with both the legal obligations of Title IX and Oregon Tech’s strategic plan and initiatives.
- Assist the Title IX Coordinator and Deputy Coordinators in monitoring changes in Title IX laws and regulations and benchmarking with other institutions on the most effective and efficient ways to assure Oregon Tech implements sound Title IX practices, provides effective education and training, and adopts effective outreach and prevention efforts.
- Collaborate with other committees and institutional partners in coordinating Title IX efforts and related efforts (*e.g.*, Clery Act, the Campus SaVE Act, and Oregon House Bill 3415 compliance).
- Create subcommittees focusing on the following core components of Oregon Tech’s overall Title IX Compliance Program: (a) compliance plan; (b) related policies and procedures; (c) effective education and training; and (d) proactive outreach and prevention efforts and initiatives.
- Develop a consistent and effective reporting system to the Title IX Coordinator, the President, other members of Oregon Tech’s senior leadership, and, when requested or appropriate, the Board.

The Board of Trustees shall request that the President transmit to the Board the joint tuition recommendation of the President and the recognized student government.

The TRC is comprised of seven students representing both campuses and appointed by the ASOIT president(s), two of which represent ASOIT, two of which represent historically underserved students of the University, as defined by the University, and one which represents graduate students; the Fiscal Operations Advisory Council (FOAC) chair; and at least two administrators. Any changes to the TRC structure required by ORS 352.102, subsequent controlling statutes or Board Policy may be made without notification. The President shall designate one member to chair the TRC.

Before making any recommendation to increase tuition and mandatory fees, but especially when the proposed increase is more than five percent annually, the TRC must document its consideration of the impact on students and the necessity of the increase in achieving the mission of the University. The TRC shall provide meaningful opportunities for members of the student government and students at large to participate in the process and deliberations.

The TRC will meet at least twice during January - February. Its meetings shall be open to the public and broad notification of the meetings shall be made to the University community. Accreditation Committee

The Accreditation Committee is an advisory body to the Provost. The committee reports to the Provost. The Accreditation Liaison Officer (ALO), selected by the President, serves as its Chair. The primary roles of the committee include providing guidance on university accreditation issues and assisting as needed with programmatic accreditation. The committee represents faculty and the administration in accreditation activities and guiding the development and implementation of the University's institutional effectiveness planning as required by the Northwest Commission on Colleges and Universities' (NWCCU) Accreditation Standards.

The committee will achieve its objectives through working with campus stakeholders to identify and use ongoing measures of institutional effectiveness and student achievement, the development and implementation of improvement plans, and the documentation of these processes as required for NWCCU accreditation.

Members are selected from faculty and staff for their experience and ability to influence and provide input into creating processes and procedures by which these measures and their outcomes can contribute to institutional decision-making. As such, the committee includes executive-level staff (or their designees) in areas that impact student achievement, as well as representation of perspectives from both academic leadership and faculty. Per se, membership is selected with a strong preference for experience in leadership, assessment, or accreditation. If the ALO is "double-listed" in the committee membership below, the Provost may appoint a designee in their stead. College faculty are selected by the College Deans; at-large faculty are jointly appointed by the Provost and ALO.
