**Subject:** RE: Tuition Recommendation Committee

I was unable to make the meeting this morning, but I wanted to provide some input.

In my opinion, I do not think there should be an increase in tuition for next year. In my honest opinion, the BYOD decision has just put an extreme burden on some students. As you know, many of our students are very poor and having to purchase a laptop for approximately (for CSET purposes) \$1250+ is enough of a tuition hike.

### Tuition Recommendation Committee

University Community,

Every winter term, the university convenes the Tuition Recommendation Committee (TRC), comprised of students at-large, student government leaders, faculty and administrators to develop a tuition recommendation for next academic year. This process is chaired by the VP for Finance and Administration. Since our new VPFA, John Harman, is scheduled to join us on March 1, I have agreed to lead the process in the interim.

The TRC is responsible for recommending resident undergraduate tuition and mandatory fee rates to the President who must in turn report and recommend mandatory tuition and fees to the Board of Trustees during the spring term.

TRC meetings are open to the campus community and information presented at the meetings is posted online. Later this term, campus forums will be held to collect student and community feedback. Once the TRC finalizes the forum dates/times, they will be announced in the weekly Oregon Tech Connect newsletter, via email announcements and posted on the TRC website link below. Please join these meetings or the open forums hosted by ASOIT to participate in the tuition setting process.

The first TRC meeting is tomorrow, January 22, at 8:00am. More information about the Committee membership and recommendation schedule is available at [www.oit.edu/trc](http://www.oit.edu/trc). Please note that the TRC weekly meeting dates and times are subject to change. Please check the website for the most up to date information.

Thank you,

*Erin*
