

From the Office of

Senator Jeff Merkley

Federal Grant Opportunities Newsletter
February 2020 Edition

Senator Jeff Merkley

Federal Grant Opportunities

February 2020

Table of Contents

AGRICULTURAL GRANTS

- 1..... Agriculture and Food Research Initiative – Foundational and Applied Science
- 1..... Agriculture Innovation Center Grant Program
- 1..... Biorefinery, Renewable Chemical and Bio based Products Manufacturing Assistance Loans
- 1..... Enhancing Professional Quality of Future Leaders in Agriculture and Natural Resources: New Strategies for Graduate Student Training
- 2..... FY2020 FY2021 Small Business Innovation Research Phase II RFA
- 2..... Genomic Tools, Genetic Resources, and Outreach to Expand Commercial U.S. Hazelnut Production
- 3..... Oregon State University Multicultural Scholars program in Bio Resource Research
- 3..... OR/WA Master Invasive and Noxious Plant Management Funding Opportunity
- 3..... Partners for Fish and Wildlife
- 4..... Rural Access to Education, Training and Health Care
- 4..... Rural Business and Agriculture Producers Develop and Market Value-Added Products
- 4..... Rural Communities Affected by Natural Disaster
- 5..... Rural Development Broadband ReConnect Program
- 5..... Rural Water and Waste Disposal Infrastructure Project, Planning Grants
- 5..... Scientific and Cooperative Research Program
- 6..... Sport Fish Restoration Grant Program for State Fish and Game Agencies
- 6..... Sport Fish Restoration Grant Program
- 7..... State Wildlife Grant (SWG) Program
- 7..... Value Added Producer Grant (VAPG) Program
- 7..... Wildlife Restoration and Basic Hunter Education Program
- 8..... Wildlife Restoration and Basic Hunter Education – Region 5

ARTS & CULTURE GRANTS

- 9..... Annual Program Statesman PAS US Consulate Juarez
- 9..... FY 2020 Creative Arts Exchange
- 9..... NEA Literature Fellowships: Poetry, FY 2021
- 9..... NEA Research Grants in the Arts
- 10..... U.S. Embassy Australia FY20 Annual Program Statement Department of State- U.S. Mission to Australia
- 10..... U.S. Embassy Cairo PAS Annual Program Statement
- 11..... U.S. Embassy Panama Public Diplomacy Small Grants Program

BUSINESS AND COMMERCE GRANTS

- 11..... Administrative Supplements to Promote Diversity in Small Businesses-SBIR/STTR
- 12..... Economic Development Assistance Program. EDA's Public Works and Economic Adjustment Assistance Programs

- 12..... Economic Development Research and National Technical Assistance Fy18-FY20
- 12..... EDA Disaster Supplemental
- 13..... FY2018 – 2020 – NOAA Broad Agency Announcement (BAA) Announcement Type: Initial
- 13..... FY2020 Public Works and Economic Adjustment Assistance Programs – Notice of Funding Opportunity (PWEAA NOFO)
- 14..... Hydrogen Fuel Cell-Battery Powered Hybrid Emergency Relief Truck: ‘H2Rescue’
- 15..... Rural Business Enterprise Grant Programs (RBEG)

COMMUNITY DEVELOPMENT GRANTS

- 15..... Assistance to Firefighters Grant
- 15..... Community Economic Development Projects
- 16..... Community Facilities Technical Assistance and Training Grant
- 16..... Community Facilities Direct Loan & Grant Program [LOAN]
- 16..... Community Partnerships to Advance Research
- 17..... Community Services Block Grant/Rural Community Development Program Water and Wastewater Treatment Systems Training and Technical Assistance Project
- 17..... Disability and Rehabilitation Research Projects (DRRP) Program: Community Living and Participation (Research)
- 18..... Environmental Literacy Grants: Supporting the education of K-12 students and the public for community resilience
- 18..... Ethnic Community Self Help Program
- 19..... FY 2020 Day of Service Grant
- 19..... Improving oral health and reducing disparities in adolescents (R21 Clinical Trial Not Allowed)
- 19..... Locally Led Development
- 20..... Mutual Self-Help Housing Technical Assistance Grants
- 20..... National Center on Parent, Family and Community Engagement
- 21..... Native American Library Services: Enhancement Grants
- 21..... Single Family Housing Direct Home Loans
- 22..... Single Family Housing Guaranteed LOAN Program
- 22..... Single Family Housing Repair Loans & Grants

EDUCATION GRANTS

- 22..... Advanced Technological Education
- 23..... Exploratory Grant Award to Promote Workforce Diversity in Basic Cancer Research (R21 Clinical Trial Not Allowed)
- 23..... NOAA Ocean Acidification Program Education Mini-Grant Program
- 23..... Oregon Sea Grant SEED-LEAF Competition
- 24..... Project AWARE (Advancing Wellness and Resilience in Education) - State Education Agency (SEA) grants
- 24..... Stimulating Access to Research in Residency (StARR) (R39)

ENERGY GRANTS

- 24..... Energy Frontier Research Centers
- 25..... Energy, Power, Control, and Networks
- 25..... Seeding Critical Advances for Leading Energy Technologies with Untapped Potential
- 26..... Solar Energy Technologies Office Fiscal Year 2020 Funding Program
Department of Energy

ENVIRONMENT GRANTS

- 26..... Geospace Environment Modeling
- 26..... Humans, Disasters, and the Built Environment
- 27..... The Health, Ecosystems and Agriculture for Resilient, Thriving Societies (HEARTH)
- 27..... Undergraduate Population and Ecosystem Dynamics Workshop Special Projects Competition
- 27..... WaterSMART Grants: Water and Energy Efficiency Grants for Fiscal Years 2020 and 2021

HEALTH AND WELLNESS GRANTS

- 28..... Addressing the Challenges of the Opioid Epidemic in Minority Health and Health Disparities Research in the U.S. (R21 Clinical Trial Optional)
- 28..... Building Capacity to Implement Rapid ART Initiation for Improved Care Engagement Initiative-Demo Sites
- 29..... Comprehensive Opioid Recovery Centers
- 29..... Grants to Implement the National Strategy for Suicide Prevention
- 29..... Grants to Implement Zero Suicide in Health Systems
- 29..... Health Tools for Individuals with Chronic Conditions to Promote Effective Patient- Provider Communication, Adherence to Treatment and Self-Management
- 30..... Minority Fellowship Program
- 30..... National Communication System for Runaway and Homeless Youth
- 31..... Public Policy Effects on Alcohol, Marijuana, and Other Substance Related Behaviors and Outcomes (R03)
- 31..... Reducing Health Disparities among Minority and Underserved Children (R01)
- 32..... Research on the Health of Transgendered and Gender Nonconforming Populations (R01 Clinical Trial Optional)
- 32..... Rural Emergency Medical Services Training Grant
- 32..... Services Grant Program for Residential Treatment for Pregnant and Postpartum Women
- 33..... Suicide Prevention Resource Center
- 33..... Supporting Implementation of National HIV Policies and the Provision of HIV Testing Services, Care, Treatment, PMTCT, TB, PrEP and the Quality of HIV-Related Testing Across the Clinical Cascade in Public Health Facilities in Botswana under PEPFAR

SCIENCE RESEARCH GRANTS

- 33..... Advances in Patient Safety through Simulation Research (R18)
- 34..... Aerospace Medicine, Clinical Research, Human Performance and Expeditionary Medicine
- 34..... Alcohol and Other Drug Interactions: Unintentional Injuries and Overdoses: Epidemiology and Prevention R03
- 34..... Applying a Biopsychosocial Perspective to Self- Management of Chronic Pain
- 35..... Army Rapid Capability Office (RCO) Broad Agency Announcement
- 36..... Army Research Office Broad Agency Announcement for Fundamental Research
- 36..... Behavioral Basis of Chronic Pain
- 37..... Clinical Trial Readiness for Rare Diseases, Disorders, and Syndromes
- 37..... From Genomic Association to Causation: A Convergent Neuroscience Approach for Integrating Levels of Analysis to Delineate Brain Function in Neuropsychiatry (R01)
- 38..... HEAL Initiative: Translational Devices to Treat Pain (UG3/UH3 Clinical Trial Optional)
- 38..... High- Priority Areas for Research Leveraging HER and Large-Scale Data
- 39..... Human- Centered Intelligence, Surveillance & Reconnaissance (ISR) Leveraged Science and Technology (S&T) Program

- 39..... Innovative Molecular Analysis Technology Development for Cancer Research and Clinical Care (R43/R44 Clinical Trial Not Allowed)
- 40..... Marijuana, Prescription Opioid, or Prescription Benzodiazepine Drug Use among Older Adults (R01)
- 40..... Mechanistic Investigations of Psychosocial Stress Effects on Opioid Use Patterns (R01- Clinical Trial Optional)
- 41..... Mechanisms of Disparities in Etiology and Outcomes of Lung Cancer in the U.S.: The Role of Risk and Protective Factors
- 41..... Microbial-Based Cancer Therapy – Bugs as Drugs
- 41..... Multilevel Interventions in Cancer Care Delivery: Follow-up to Abnormal Screening Tests (R01 Clinical Trial Optional)
- 42..... Multi-Site Studies for System-Level Implementation of Substance Use Prevention and Treatment Services (R01)
- 42..... Pediatric Critical Care Conferences (R13 Clinical Trial Not Allowed)
- 42..... Pregnancy in Women with Disabilities (R03)
- 43..... Pilot and Feasibility Clinical Research Grants in Urologic Disorders (R21 Clinical Trial Optional)
- 43..... Providing Research Education Experiences to Enhance Diversity in the Next Generation of Substance Abuse and Addiction Scientists
- 43..... Research Options for Space Enterprise Technologies (ROSET)
- 44..... Secondary Analyses in Obesity, Diabetes and Digestive and Kidney Diseases (R21 Clinical Trial Not Allowed)

LOCAL GRANT OPPORTUNITIES (Non-Federal Grants)

- 44..... Affordable Housing Loans for Low-Income Rural Communities
- 45..... Automated External Defibrillator (AED) Grant Program
- 45..... Rapid Outcomes from Agricultural Research (ROAR)
- 45..... Community Building Spaces Grant
- 45..... Community Facilities Loan Program
- 46..... Cow Creek Band of the Umpqua Tribe Foundation Grants
- 46..... Data & Computational Research
- 46..... Good Neighbor Grant Application
- 47..... Help for the Helpers
- 47..... Nike Community Impact Fund
- 47..... Oregon Immigrant and Refugee Funders Collaborative
- 48..... Rural LISC Community Facilities Fund
- 48..... Rural LISC Loans
- 48..... Technical Assistance Grant Application
- 48..... The Collins Foundation Grants
- 49..... The Hearst Foundations Grants

We ask that you also consider the following sources for Grant assistance. This newsletter does not reflect the multitude of grants available from the Federal Government, but holds programs relevant to the state of Oregon and the Pacific Northwest.

Catalog of Federal Domestic Assistance: www.beta.sam.gov

Federal Grants: www.grants.gov

Government Benefits: www.benefits.gov

Federal Loans:

<http://www.rurdev.usda.gov/ORcf.html>

<http://www.rurdev.usda.gov/ORwep.html>

Grant Writing: A frequently asked question in our Oregon communities is where can I turn for help in writing grants. Senator Merkley and his team do not make recommendations on individuals who provide grant or fundraising consulting. However there are professional organizations in Oregon that you can contact for assistance:

Willamette Valley Development Officers 503-274-1977

<https://wvdo-or.org/>

admin@wvdo-or.org

Grant Professionals Association, Oregon & SW Washington Chapter

<http://www.gpanorthwest.org/>

gpanorthwest1@gmail.com

Further local grants and information:

[Federal Grants Database](#)

[Nonprofit Association of Oregon](#) (State)

[Oregon Foundations](#)

Questions regarding grant opportunities can be directed to Scott Maguire in Senator Jeff Merkley's Portland office at 503-326-3386 or scott_maguire@merkley.senate.gov

A special **thank you** to Bailey Timmons, our intern, for his help in compiling this newsletter.

AGRICULTURAL GRANTS:

Agriculture and Food Research Initiative – Foundational and Applied Science *National Institute of Food and Agriculture, USDA*

The AFRI Foundational and Applied Science Program supports grants in six AFRI priority areas to advance knowledge in both fundamental and applied sciences important to agriculture. The six priority areas are: Plant Health and Production and Plant Products; Animal Health and Production and Animal Products; Food Safety, Nutrition, and Health; Bioenergy, Natural Resources, and Environment; Agriculture Systems and Technology; and Agriculture Economics and Rural Communities.

Funding Opportunity Number: USDA-NIFA-AFRI-007052

Closing Date for Applications: November 18, 2020

Agriculture Innovation Center Grant Program

U.S. Department of Agriculture – Business and Cooperative Programs

The primary objective of the program is to provide grants to Agriculture Innovation Centers that will provide technical assistance to agricultural producers to market value-added agricultural products.

<https://www.grants.gov/web/grants/search-grants.html>

Funding Opportunity Number: RDBCP-AIC-2020

Closing Date for Applications: March 20, 2020

Biorefinery, Renewable Chemical, and Biobased Product Manufacturing

U.S. Department of Agriculture, Rural Development

This program provides loan guarantees up to \$250 million to assist in the development, construction and retrofitting of new and emerging technologies. These technologies are: advanced biofuels, renewable chemicals and biobased products.

<https://www.rd.usda.gov/programs-services/biorefinery-renewable-chemical-and-biobased-product-manufacturing-assistance>

Closing Date for Applications: April 1, 2020

Enhancing Professional Quality of Future Leaders in Agriculture and Natural Resources: New Strategies for Graduate Student Training

United States Department of Agriculture

These Grants are utilized to train students for Master's and/or doctoral degrees and provide additional postdoctoral training for Fellows who have completed their

doctoral degrees at colleges and universities that have demonstrable teaching and research competencies in the food and agricultural sciences. Fellowships and IRTA awards are specifically intended to support traineeship programs that encourage outstanding students to pursue and complete their degrees or obtain postdoctoral training in areas where there is a national need for the development of scientific and professional expertise in the food and agricultural sciences. Fellowships and IRTA awards invest in graduate training and relevant international experiential learning for a cadre of diverse individuals who demonstrate their potential to successfully complete graduate degrees.

Closing Date for Applications: May 14, 2021

FY2020 FY2021 Small Business Innovation Research Phase II RFA

U.S. Department of Agriculture

The Small Business Innovation Research (SBIR) program at the U.S. Department of Agriculture (USDA) offers competitively awarded grants to qualified small businesses to support high quality research related to important scientific problems and opportunities in agriculture that could lead to significant public benefits. The program stimulates technological innovations in the private sector and strengthens the role of federal research and development in support of small businesses. The SBIR program also fosters and encourages participation by women-owned and socially or economically disadvantaged small businesses.

Closing Date for Applications: August 31, 2021

Oregon State University Multicultural Scholars Program in Bio Resource Research

United States Department of Agriculture

To increase the ethnic and cultural diversity of the food and agricultural scientific and professional work force, and to advance the educational achievement of minority Americans. Grants are provided to colleges and universities that have a demonstrable capacity to attract, educate, and graduate minority students for careers as agri-science and agri-business professionals, and have unique capabilities for achieving the objective of full representation of minority groups in the fields of agriculture, natural resources, forestry, veterinary medicine, home economics, and disciplines closely allied to the food and agricultural system.

Closing Date for Applications: June 14, 2021

OR/WA Master Invasive and Noxious Plant Management Funding Opportunity

U.S. Department of the Interior, Bureau of Land Management

One of the BLM's highest priorities is to promote ecosystem health and one of the greatest obstacles to achieving this goal is the rapid expansion of weeds across public lands. These invasive plants can dominate and often cause permanent damage to natural plant communities. If not eradicated or controlled, noxious weeds will continue to jeopardize the health of the public lands and to constrain the myriad activities that occur on public lands.

<https://www.grants.gov/web/grants/search-grants.html>

Funding Opportunity Number: L20AS00025

Closing Date for Applications: July 10, 2020

Partners for Fish and Wildlife

U.S. Department of the Interior

The Partners for Fish and Wildlife (PFW) Program is a voluntary, incentive-based program that provides direct technical assistance and financial assistance in the form of cooperative and grant agreements to private landowners to restore and conserve fish and wildlife habitat for the benefit of federal trust resources.

<https://www.grants.gov/web/grants/search-grants.html>

Closing Date for Applications: April 17, 2020

Rural Access to Education, Training and Health Care

U.S. Department of Agriculture

USDA is making \$71.7 million in grants available under the Distance Learning and Telemedicine Grant program. This program helps rural communities use telecommunications-based audio and video equipment to connect teachers, students, medical providers and rural residents with each other and the world.

Applicants in rural areas of 20,000 people or less who provide education or health care services through telecommunications facilities are eligible to apply.

Applications will be scored, reviewed and selected on a competitive basis.

Closing Date for Applications: April 10, 2020

Rural Business and Agriculture Producers Develop and Market Value-Added Products

U.S. Department of Agriculture

The U.S. Department of Agriculture (USDA) Rural Development is accepting applications for technical assistance grants, which the recipients will use to help rural business and agricultural producers develop and market value-added agriculture products. Grants must be used to establish and operate Agriculture Innovation Centers that will provide technical and business development assistance to agricultural producers seeking to engage in value-added activities.

<https://www.rd.usda.gov/programs-services/agriculture-innovation-center-program>

Closing Date for Applications: March 20, 2020 9pm PST

Rural Communities Affected by Natural Disaster

U.S. Department of Agriculture

The U.S. Department of Agriculture (USDA) Rural Development is accepting applications for grants to help rural communities continue their recovery from devastating natural disasters. Up to \$1.2 million in grants will soon be available in Oregon through the Community Facilities Program.

The grants may be used for relief in areas affected by natural disasters that occur through calendar year 2019 where the Federal Emergency Management Agency (FEMA) has provided a notice declaring a Major Disaster Declaration and assigned a FEMA disaster recover (DR) number.

Closing Date for Applications: Rolling

Rural Development Broadband ReConnect Program

U.S. Department of Agriculture

The Broadband ReConnect Program furnishes loans and grants to provide funds for the costs of construction, improvement, or acquisition of facilities and equipment needed to provide broadband service in eligible rural areas. The application window for the first round of funding is closed, and applications are currently under review. Follow one of the links below to learn more about the program.

<https://www.usda.gov/reconnect>

Closing Date for Applications: March 16, 2020

Rural Water and Waste Disposal Infrastructure Project, Planning Grants

U.S. Department of Agriculture

Provides loans, loan guarantees, and grants to fund the construction, upgrade, or expansion of clean and reliable drinking water systems, sanitary sewage or solid waste disposal infrastructure, and storm water drainage in rural areas. Eligible applicants include most state and local government entities, private nonprofits, and federally-recognized tribes are eligible to apply. Projects must be located in a rural area with a population of 10,000 or less.

<https://www.rd.usda.gov/programs-services/water-waste-disposal-loan-grant-program/or>

Closing Date for Applications: Rolling

Scientific and Cooperative Research Program

U.S. Department of Agriculture

The Scientific Cooperation Research Program (SCRCP) is a Foreign Agricultural Service Office (FAS) administered program that has been in existence for several decades. SCRCP will support applied research, extension, and education projects — lasting up to two years between U.S. researchers and researchers from selected emerging market economies - that create practical solutions to challenges faced by small farmers and build regional or global trade capacities in FAS countries.

<https://www.grants.gov/web/grants/search-grants.html>

Funding Opportunity Number: USDA-FAS-10961-0700-10-20-0001

Closing Date for Applications: March 2, 2020

Sport Fish Restoration Grant Program for State Fish and Game Agencies
U.S. Department of the Interior, Fish and Wildlife Service

The Sport Fish Restoration program provides Federal grant funding to the 50 States, Commonwealths, and territories (State(s)) for land acquisition, boating access development, research projects, operations and maintenance of public fishing areas, hatchery and lake construction and maintenance, sport fish population management, fishing habitat improvements, coordination projects, and aquatic resource education. These activities restore or manage sport fish populations and provide public access to these resources. Ineligible activities include law enforcement of fish and game regulations and public relation activities to promote the fish and wildlife agency.

<https://www.grants.gov/web/grants/view-opportunity.html?oppId=309540>

Funding Opportunity Number: F19AS00008

Closing Date for Applications: August 30, 2020

Sport Fish Restoration Grant Program

U.S. Department of the Interior, Fish and Wildlife Service

The Sport Fish Restoration Act of 1950 (Dingell-Johnson Sport Fish Restoration Act), 64 Stat. 430 as amended; 16 U.S.C. 777-777n, except e-1 and g-1, was enacted on August 9, 1950. It was modeled after the Pittman-Robertson Wildlife Restoration Act to create a parallel program for management, conservation, and restoration of sport fishery resources. The Sport Fish Restoration Grant Program (SFR) is funded by revenues collected from excise taxes on sport fishing equipment, electric motors and sonar, import duties on fishing tackle, yachts and pleasure craft, and a portion of gasoline tax attributable to motorboats and small engines. Revenues are deposited into and apportioned from the Sport Fish Restoration and Boating Trust Fund. SFR provides funding to restore, conserve, manage, or enhance sport fish populations and the public use and benefits from these resources; to educate the public about aquatic resources; and to provide boating access to public waters. Monies are apportioned annually following a legislatively established formula to each of the eligible participants (State fish and wildlife agencies).

<https://www.grants.gov/web/grants/view-opportunity.html?oppId=310643>

Funding Opportunity Number: F19AS00055

Closing Date for Applications: Aug 31, 2020

State Wildlife Grant (SWG) Program

U.S. Department of the Interior, Fish and Wildlife Service

The State Wildlife Grant (SWG) Program provides States, the District of Columbia, Commonwealths, and Territories (States) Federal grant funds for the development and implementation of programs for the benefit of wildlife and their habitats, including species that are not hunted or fished. Eligible activities include both conservation planning and implementation activities. Conservation planning activities must contribute directly to the development or modification of your current Wildlife Action Plan (Plan) approved by the Director of the Service. Implementation activities are those that you intend to carry out to execute your Plan. SWG Program funds must benefit species of greatest conservation need (SGCN) identified in your Plan, and when prioritizing use of these funds you should take into consideration the relative level of funding available for the conservation of those species.

Funding Opportunity Number: F19AS00153

Closing Date for Applications: August 31, 2020

Value Added Producer Grant (VAPG) Program

U.S. Department of Education

The Value-Added Producer Grant (VAPG) program helps agricultural producers enter into value-added activities related to the processing and marketing of new products. The goals of this program are to generate new products, create and expand marketing opportunities and increase producer income.

<https://www.rd.usda.gov/programs-services/value-added-producer-grants/or>

Closing Date for Applications: March 10, 2020

Wildlife Restoration and Basic Hunter Education Program

U.S. Department of the Interior, Fish and Wildlife Service

The Federal Aid in Wildlife Restoration Act of 1937, 50 Stat. 917 as amended; 16 U.S.C. 669-669k, now known as the Pittman-Robertson Wildlife Restoration Act, was enacted on September 2, 1937, and began functioning July 1, 1938. The purpose of this Act has been to provide funding for the selection, restoration, rehabilitation, and improvement of wildlife habitat, wildlife management research, and the distribution of information produced by the projects. The Act was amended on October 23, 1970, to include funding for hunter safety programs and the development or the operation and maintenance of firearm and archery ranges.

Additional information about the Wildlife Restoration Grant Program is available on our website here:

<https://www.grants.gov/web/grants/view-opportunity.html?oppId=309536>

Funding Opportunity Number: F19AS00007

Closing Date for Applications: August 31, 2020

Wildlife Restoration and Basic Hunter Education Program – Region 5

U.S. Department of the Interior, Fish and Wildlife Service

The Federal Aid in Wildlife Restoration Act of 1937, 50 Stat. 917 as amended; 16 U.S.C. 669-669k, now known as the Pittman-Robertson Wildlife Restoration Act, was enacted on September 2, 1937, and began functioning July 1, 1938. The purpose of this Act has been to provide funding for the selection, restoration, rehabilitation, and improvement of wildlife habitat, wildlife management research, and the distribution of information produced by the projects. The Act was amended on October 23, 1970, to include funding for hunter safety programs and the development or the operation and maintenance of firearm and archery ranges.

NEA Literature Fellowships: Poetry, FY 2021

National Endowment for the Arts

The National Endowment for the Arts Literature Fellowships program offers \$25,000 grants in prose (fiction and creative nonfiction) and poetry to published creative writers that enable recipients to set aside time for writing, research, travel and general career advancement. Applications are reviewed through an anonymous process in which the only criteria for review are artistic excellence and artistic merit of the submitted manuscript. The program operates on a two-year cycle with fellowships in prose and poetry available in alternating years. For FY 2021 which is covered by these guidelines, fellowships in poetry are available.

<https://www.grants.gov/web/grants/search-grants.html>

Funding Opportunity Number: 2020NEA03LFCW

Closing Date for Applications: March 11, 2020

NEA Research Grants in the Arts

National Endowment for the Arts

Our support of a project may start on or after January 1, 2021. Grants generally may cover a period of performance of up to two years, with an exception for projects that include primary data collection as part of the proposed activity. Projects that include primary data collection may request up to three years. Projects that extend beyond one year will be required to submit an annual progress report, and must include updated human ethics training and Institutional Review Board (IRB) materials as necessary. A grantee may not receive more than one National Endowment for the Arts grant for the same project during the same period of performance. Grant Program Description The National Endowment for the Arts invites applicants to engage with the agency's five-year research agenda through

two funding opportunities for research projects: Research Grants in the Arts funds research that investigates the value and/or impact of the arts, either as individual components of the U.S. arts ecology or as they interact with each other and/or with other domains of American life. Matching/cost share grants of \$10,000 to \$100,000 will be awarded.

Closing Date for Applications: March 30, 2020

U.S. Embassy Australia FY20 Annual Program Statement

Department of State – U.S. Mission to Australia

The U.S. Embassy in Australia announces an open competition for organizations and individuals to submit applications to carry out programs that strengthen support for the unbreakable U.S.-Australia alliance, raise awareness about joint economic partnerships, and promote shared interests in a free and open Indo-Pacific region. Applications should include an American element or connection with an American expert, organization or institution.

Priority Program Areas:

1. Shared values: activities that promote the values that underpin the U.S. – Australia alliance, including but not limited to democracy, human rights, rule of law, freedom of speech and gender equality
2. Economic Partnership: activities that support U.S. Australia partnerships in areas including space exploration, critical minerals, cybersecurity, advanced manufacturing, entrepreneurship and corporate social responsibility
3. Indo-Pacific Vision: Activities that advance U.S. Australian efforts to increase security, prosperity, good governance, and cooperation in the South Pacific sub-region and the broader Indo-Pacific region

BUSINESS & COMMERCE GRANTS:

Administrative Supplements to Promote Diversity in Small Businesses-SBIR/STTR

U.S. Department of Health and Human Services, National Institutes of Health

The National Institutes of Health (NIH) and the Centers for Disease Control and Prevention (CDC) hereby notify Small Business Concerns (SBCs) holding Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) grants that funds are available for administrative supplements to improve the diversity of the research workforce by recruiting and supporting students, postdoctorates, and eligible investigators from groups that have been shown to be nationally underrepresented in health-related research or in the SBIR program. This supplement opportunity is also available to PD(s)/PI(s) of research grants who are or become disabled and need additional support to accommodate their disability in order to continue to work on the research project. Administrative supplements must support work within the scope of the original project. This Funding Opportunity Announcement (FOA) is designed specifically for applicants proposing research that does not involve leading an independent clinical trial, a clinical trial feasibility study, or an ancillary study to a clinical trial. Applicants to this FOA are permitted to propose research experience in a clinical trial led by a mentor or co-mentor.

Economic Development Assistance Program. EDA's Public Works and Economic Adjustment Assistance Programs

U.S. Department of Commerce, Economic Development Administration

Under this NOFO, EDA solicits applications from applicants in rural and urban areas to provide investments that support construction, non-construction, technical assistance, and revolving loan fund projects under EDA's Public Works and EAA programs. Grants and cooperative agreements made under these programs are designed to leverage existing regional assets and support the implementation of economic development strategies that advance new ideas and creative approaches to advance economic prosperity in distressed communities. EDA provides strategic investments on a competitive- merit-basis to support economic development, foster job creation, and attract private investment in economically distressed areas of the United States.

Economic Development Research and National Technical Assistance

U.S. Department of Commerce

Providing timely information on best practices in economic development is critical to practitioners' efforts to alleviate economic distress and promote economic development. The National Technical Assistance program assists in formulating and implementing new economic development tools. These tools support local governments' efforts to partner with private industry and attract private investment to revitalize regions and local communities.

<https://www.eda.gov/pdf/about/Research-and-Evaluation-Program-1-Page1.pdf>

Funding Opportunity Number: EDA-HDQ-RNTA-2018-2005669

Closing Date for Applications: September 30, 2020

EDA Disaster Supplemental

U.S. Department of Commerce, Economic Development Administration

EDA announces general policies and application procedures for the Disaster Supplemental NOFO. Subject to the availability of funds, this investment assistance will help communities and regions devise and implement long-term economic recovery strategies through a variety of non-construction and construction projects, as appropriate, to address economic challenges in areas

where a Presidential declaration of a major disaster was issued under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. § 5121 et seq.) (Stafford Act) as a result of Hurricanes Harvey, Irma, and Maria, and of wildfires and other natural disasters occurring in calendar year 2017. To be competitive, applications must clearly incorporate principles for enhancing the resilience (as defined under Section A.4, below) of the relevant community/region or demonstrate the integration of resilience principles into the investment project itself. Resilience is an essential component of any strategy for mitigating the potential for future disaster-related losses and adverse economic impacts for communities.

FY2018 – 2020 – NOAA Broad Agency Announcement (BAA) Announcement

Type: Initial

U.S. Dept. of Commerce, National Oceanic and Atmospheric Administration

This Broad Agency Announcement is a mechanism to encourage research, education and outreach, innovative projects, or sponsorships that are not addressed through NOAA's competitive discretionary programs. This announcement is not soliciting goods or services for the direct benefit of NOAA. Funding for activities described in this notice is contingent upon the availability of Fiscal Year 2018, Fiscal Year 2019, and Fiscal Year 2020 appropriations. Applicants are hereby given notice that funds have not yet been appropriated for any activities described in this notice. Publication of this announcement does not obligate NOAA to review an application beyond an initial administrative review, or to award any specific project, or to obligate any available funds.

Closing Date for Applications: September 30, 2020

FY2020 Public Works and Economic Adjustment Assistance Programs – Notice of Funding Opportunity (PWEAA NOFO)

U.S. Economic Development Administration (EDA)

The EDA solicits applications for construction, non-construction, planning, technical assistance and revolving loan fund projects under EDA's Public Works program and Economic Adjustment Assistance (EAA) program, which includes Assistance to Coal Communities. EDA awards are made under these programs are designed to leverage existing regional assets and support the implementation of

economic development strategies that advance new ideas and creative approaches to advance economic prosperity in distressed communities, including those negatively impacted by changes to the coal economy.

Projects funded by these programs will support work in Opportunity Zones and will support the mission of the Department by, among other things: leading to the creation and retention of jobs and increased private investment, advancing innovation, enhancing the manufacturing capacities of regions, providing workforce development opportunities, and growing ecosystems that attract foreign direct investment.

**Hydrogen Fuel Cell-Battery Powered Hybrid Emergency Relief Truck:
'H2Rescue'**

United States Department of Defense

This is a joint Funding Opportunity Announcement (FOA) for one cooperative agreement award, to be issued by the US Army Corps of Engineers (USACE), Engineer Research and Development Center Construction Engineering Research Laboratory (ERDC-CERL) under the authority of 10 U.S.C. 2358. The effort is supported by the U.S. Department of Energy (DOE) Fuel Cell Technologies Office, the DOE Vehicle Technologies Office, the U.S. Army Futures Command Ground Vehicle Systems Center (GVSC), and the Department of Homeland Security (DHS). Each of these agencies support missions relevant to this announcement, including hydrogen fuel cell-battery powered hybrid vehicle development, emergency response and military operations. The development and deployment of a fuel cell-battery powered hybrid emergency relief truck could ultimately enhance their response capabilities. Expected benefits include clean, quiet operation, load-following microgrid- capable exportable power, water production, and heat. Under this funding opportunity announcement (FOA) ERDC-CERL is accepting applicants to build, test, and demonstrate a fuel cell-battery powered hybrid emergency relief truck.

Environmental Literacy Grants: Supporting the education of K-12 students and the public for community resilience

U.S. Department of Commerce

The goal of this funding opportunity is to build environmental literacy of K-12 students and the public so they are knowledgeable of the ways in which their community can become more resilient to extreme weather and/or other environmental hazards, and become involved in achieving that resilience. Building sufficient environmental literacy in a community means that these communities are composed of individuals who are supported by formal and informal education that develop their knowledge, skills and confidence to: (1) reason about the ways that human and natural systems interact globally and where they live (2) participate in scientific and/or civic processes; and (3) consider scientific uncertainty, cultural knowledge, and diverse community values in decision making.

National Center on Parent, Family and Community Engagement

U.S. Department of Health and Human Services

The Administration for Children and Families (ACF), Office of Head Start (OHS) announces the availability of approximately \$5,700,000 to be competitively awarded for the purpose of operating a National Center on Parent, Family and Community Engagement (NC PFCE). The NC PFCE will provide training and technical assistance (TTA) that reflects current evidence, is research-informed and promotes best practices. The NC PFCE will strengthen professional development outcomes for staff and improve outcomes for children and families enrolled in Head Start and/or Early Head Start programs. The NC PFCE TTA efforts will lead to improved family outreach and recruitment; improved family well-being; expanded family engagement in children's learning and development; and enhanced community partnerships that support families. Because of the complex work the NC PFCE will conduct, the grantee will be expected to bring together knowledgeable subrecipients within the fields of human services, early childhood, social work, mental health, parenting, leadership, and family economic mobility.

Native American Library Services: Enhancement Grants

Institute of Museum and Library Services

Native American Enhancement grants are competitive grants available to carry out activities, described in 20 U.S.C. 9141, that advance the programs and services of eligible Native American libraries. Project categories include:

- Preservation and Revitalization projects focus on the preservation and revitalization of Native American language and culture through use of efficient and effective strategies and incorporation of strategic partnerships. Activities include preservation of content of unique and specific value to the community, following established best practices and standards.
- Educational Programming projects include programs for library patrons and community-based users related to a specific topic or content area through development, implementation and evaluation of classes, events, tools, resources, and/or other services. Emphasis should be placed on the needs of learners and appropriate teaching and facilitation approaches and curriculum development.
- Digital Services projects feature activities dedicated to the establishment and refinement of digital services and programs related to infrastructure, platforms, and technology, in general. Proposals for digitization projects should include plans for preservation of and access to the resulting digital objects and/or implementing digital library tools to provide services to Native American communities.

Addressing the Challenges of the Opioid Epidemic in Minority Health and Health Disparities Research in the U.S. (R21 Clinical Trial Optional)

National Institutes of Health

The purpose of this Funding Opportunity Announcement (FOA) is to encourage developmental and exploratory research focused on determining the mechanisms for the variation in the prevalence of Opioid Use Disorder (OUD), and understanding and reducing disparities in opioid care in minority health and health disparity populations in the U.S. This initiative will also seek to identify multi-level intervention strategies at the institutional and systems level for addressing OUD in these populations.

Closing Date for Applications: November 13, 2020

Building Capacity to Implement Rapid ART Initiation for Improved Care Engagement Initiative-Demo Sites

U.S. Department of Health and Human Services

This funding initiative will support 20 demonstration sites to promote a "Rapid Start" connection or accelerated entry into HIV medical care and rapid initiation of antiretroviral therapy (ART) for people with HIV (PWH) who are newly diagnosed, new to care, or out of care. Recipients will replicate and expand current models of rapid ART that have been identified as successful interventions under a previously funded SPNS project. These models of rapid ART will be implemented in communities to accelerate the time period from new HIV diagnosis to entry into care, increase faster linkage and engagement into care for those out of care, and achieve and sustain viral suppression. This initiative will target organizations who have the capacity and infrastructure to support rapid ART implementation.

Funding Opportunity Number: HRSA-20-114

Closing Date for Applications: June 5, 2020

Comprehensive Opioid Recovery Centers

Substance Abuse and Mental Health Services Administration

The purpose of the program is the operation of comprehensive centers which provide a full spectrum of treatment and recovery support services to address the opioid epidemic.

<https://www.samhsa.gov/grants/grant-announcements/ti-20-006>

Closing Date for Applications: March 17, 2020

Grants to Implement the National Strategy for Suicide Prevention

Substance Abuse and Mental Health Services Administration

The purpose of this program is to support states and communities in advancing efforts to prevent suicide and suicide attempts among adults age 25 and older in order to reduce the overall suicide rate and number of suicides in the U.S. nationally. Addressing suicide prevention among adults is imperative to decreasing the nation's suicide rate.

<https://www.samhsa.gov/grants/grant-announcements/sm-20-014>

Closing Date for Applications: March 23, 2020

Grants to Implement Zero Suicide in Health Systems

Substance Abuse and Mental Health Services Administration

The purpose of this program is to implement suicide prevention and intervention programs for individuals who are 25 years of age or older. This program is designed to raise awareness of suicide, establish referral processes, and improve care and outcomes for such individuals who are at risk for suicide. Recipients will implement the Zero Suicide model throughout their health system.

<https://www.samhsa.gov/grants/grant-announcements/sm-20-015>

Closing Date for Applications: March 30, 2020

Health Tools for Individuals with Chronic Conditions to Promote Effective Patient-Provider Communication, Adherence to Treatment and Self-Management

National Institutes of Health

The purpose of this initiative is to stimulate research utilizing Mobile Health (mHealth) tools aimed at the improvement of effective patient provider communication, adherence to treatment and self-management of chronic diseases. With the rapid expansion of cellular networks and substantial advancements in Smartphone technologies, it is now possible - and affordable - to transmit patient data digitally from remote areas to specialists in urban areas, receive real-time feedback, and capture that consultation in a database. These mHealth tools, therefore, may facilitate more timely and effective patient-provider communication

through education communication around goal setting, treatment reminders, feedback on patient progress, and may improve health outcomes. This announcement encourages the development and testing of interventions utilizing mHealth technologies. There is also an interest in studying mHealth technologies in underserved populations.

<http://grants.nih.gov/grants/guide/pa-files/PA-18-386.html>

Closing Date for Applications: January 07, 2021

Minority Fellowship Program

Substance Abuse and Mental Health Services Administration

The purpose of this program is to increase the knowledge of mental health professionals on issues related to prevention, treatment, and recovery support for individuals who are from racial and ethnic minority populations and have a mental or co-occurring mental and substance use disorder (COD) and to improve the quality of care provided to these individuals.

<https://www.samhsa.gov/grants/grant-announcements/sm-20-013>

Closing Date for Applications: March 16, 2020

National Communication System for Runaway and Homeless Youth

Department of Health and Human Services – Administration for Children and Families

The Administration for Children and Families (ACF), Administration on Children, Youth and Families (ACYF), Family and Youth Services Bureau (FYSB) will award one cooperative agreement on a competitive basis for a period of three years to operate the Runaway and Homeless Youth National Communication System (NCS) Program. The NCS Program is a dedicated toll-free, U.S. national communication system that provides information, referral services, crisis intervention, prevention approaches and communication services to vulnerable, at risk, and runaway and homeless youth and their families or legal guardians. The purpose of the NCS is to a) prevent youth from running away and becoming homeless and b) link youth with a family member or guardian, and/or an available resource that can provide and/or assist the youth in acquiring needed services. To fulfill the objectives of the legislation, the NCS must provide, among other services, a neutral and confidential channel of communication that is available on a 24 hours per day, seven days per week basis throughout the United States so that youth contemplating running away and runaway and homeless youth may re-establish contact with their parents or legal guardians if possible. The NCS Program is also expected to work closely and collaboratively with FYSB to fulfill its mission as the federally funded communication system for runaway and

homeless youth. A full description of services that will be required of the NCS grantee will be provided in the publish announcement.

Closing Date for Applications: March 22, 2020

Public Policy Effects on Alcohol, Marijuana, and Other Substance-Related Behaviors and Outcomes (R03)

National Institutes of Health

This Funding Opportunity Announcement (FOA) encourages applications to conduct research on the effects of public policies on health-related behaviors and outcomes associated with alcohol, marijuana, and other substances. The purpose of the FOA is to advance understanding of how public policy may serve as a tool for improving public health and welfare through its effects on behaviors and outcomes pertaining to alcohol and other drugs. This FOA is intended to support innovative research to examine policy effects that have the potential to lead to meaningful changes in public health. Research projects that may be supported by this FOA include, but are not necessarily limited to: causal analyses of the effects of one or multiple public policies; evaluations of the effectiveness of specific public policies as tools for improving public health through their effects on alcohol, marijuana, and other substance-related behaviors and outcomes; and research to advance methods and measurement used in studying relationships between public policies and alcohol-, marijuana-, and other substance-related behaviors and outcomes. The R03 Small Research Grant Program supports discrete, well-defined projects that realistically can be completed in two years and that require limited levels of funding. This program supports different types of projects including pilot or feasibility studies; secondary analysis of existing data; small, self-contained research projects; and development of research methodology.

Closing Date for Applications: May 07, 2020

Reducing Health Disparities among Minority and Underserved Children (R01)

National Institutes of Health

This initiative encourages research that targets the reduction of health disparities among children. Investing in early childhood development is essential. Specific targeted areas of research include bio-behavioral studies that incorporate multiple factors that influence child health disparities such as biological (e.g., genetics, cellular, organ systems), lifestyle factors, environmental (e.g., physical and family environments) social (e.g., peers), economic, institutional, and cultural and family influences; studies that target the specific health promotion needs of children with

a known health condition and/or disability; and studies that test, evaluate, translate, and disseminate health promotion prevention and interventions conducted in traditional and non-traditional settings.

Closing Date for Applications: May 07, 2020

Research on the Health of Transgender and Gender Nonconforming Populations (R01 Clinical Trial Optional)

National Institutes of Health

IC reissue of FOA in response to the new clinical trial requirements. This funding opportunity announcement (FOA) calls for research on the health of transgender and gender nonconforming people of all ages, including both youth and adults who are questioning their gender identity and those individuals who are making or who have made a transition from being identified as one gender to the other. This group encompasses individuals whose gender identity differs from the sex on their original birth certificate or whose gender expression varies significantly from what is traditionally associated with or typical for that sex.

Closing Date for Applications: January 07, 2021

Rural Emergency Medical Services Training Grant

Substance Abuse and Mental Health Services Administration

The purpose of this program is to recruit and train emergency medical services (EMS) personnel in rural areas. SAMHSA recognizes the great need for emergency services in rural areas and the critical role EMS personnel serve across the country.

<https://www.samhsa.gov/grants/grant-announcements/fg-20-005>

Closing Date for Applications: March 30, 2020

Services Grant Program for Residential Treatment for Pregnant and Postpartum Women

Substance Abuse and Mental Health Services Administration

The purpose of this program is to provide pregnant and postpartum women treatment for substance use disorders through programs in which, during the course of receiving treatment, 1) the women reside in or receive outpatient treatment services from facilities provided by the programs; 2) the minor children of the women reside with the women in such facilities, if the women so request; and 3) the services are available to or on behalf of the women.

<https://www.samhsa.gov/grants/grant-announcements/ti-20-007>

Closing Date for Applications: March 30, 2020

Suicide Prevention Resource Center

Substance Abuse and Mental Health Services Administration

The purpose of this program is to build national capacity for preventing suicide by providing technical assistance, training, and resources to assist states, tribes, communities, providers, practitioners and members of the public on suicide prevention strategies and best practices to address the issue of suicide. Based on the foundation established by the National Strategy for Suicide Prevention, this Center will serve as a national center of excellence to address suicide across the country.

Funding Opportunity Number: CDC-RFA-GH20-2008

Closing Date for Applications: May 7, 2020

SCIENCE RESEARCH GRANTS:

Advances in Patient Safety through Simulation Research (R18)

National Institutes of Health, Agency for Health Care Research and Quality

The Agency for Healthcare Research and Quality (AHRQ) is interested in funding a diverse set of projects that develop, test and evaluate various simulation approaches for the purpose of improving the safe delivery of health care.

Simulation in health care serves multiple purposes. As a training technique, it exposes individuals and teams to realistic clinical challenges through the use of mannequins, task trainers, virtual reality, standardized patients or other forms, and allows participants to experience in real-time the consequences of their decisions and actions. The principal advantage of simulation is that it provides a safe

environment for health care practitioners to acquire valuable experience without putting patients at risk. Simulation also can be used as a test-bed to improve clinical processes and to identify failure modes or other areas of concern in new procedures and technologies that might otherwise be unanticipated and serve as threats to patient safety. Yet another application of simulation focuses on the establishment of valid and reliable measures of clinical performance competency and their potential use for credentialing and certification purposes. The foremost aim of the announcement is to advance patient safety.

Closing Date for Applications: January 7, 2022

Applying a Biopsychosocial Perspective to Self-Management of Chronic Pain
National Institutes of Health

The purpose of the Funding Opportunity announcement is to encourage grant applications from the scientific community on applying a biopsychosocial perspective to self-management of chronic pain. Research objectives include, but

are not limited to, those that: 1) adapt integrative models of care that address the psychological and social influences on optimal self-management of chronic pain; 2) assess the effect of biopsychosocial approaches to self-manage chronic pain on non-pain domains such as sleep, cognition and functional activities of daily living; 3) adapt or develop technological tools that can improve psychological and social well-being, e.g., by reducing social isolation, in order to promote self-management of chronic pain; 4) identify psychosocial barriers to chronic pain self-management in disparate populations, including populations at-risk for under treatment of chronic pain; 5) conceive models of biopsychosocial predictors of chronic pain that can inform self-management as care rather than cure; 6) tailor biopsychosocial-centered approaches to chronic pain that emphasize self-management as care rather than cure.

Closing Date for Applications: January 07, 2022

Army Rapid Capability Office (RCO) Broad Agency Announcement

U.S. Dept. of the Army, ACC-APG-Edgewood

This Broad Agency Announcement (BAA), W56JSR-18-S-0001, is sponsored by the Army Rapid Capabilities Office (RCO). The RCO serves to expedite critical capabilities to the field to meet Combatant Commanders' needs. The Office enables the Army to experiment, evolve, and deliver technologies in real time to address both urgent and emerging threats while supporting acquisition reform efforts. The RCO executes rapid prototyping and initial equipping of capabilities, particularly in the areas of cyber, electronic warfare, survivability and positioning, navigation and timing (PNT), as well as other priority projects that will enable Soldiers to operate and win in contested environments decisively. This BAA is an expression of interest only and does not commit the Government to make an award or pay proposal preparation costs generated in response to this announcement.

Questions concerning the receipt of your submission should be directed:

<http://rapidcapabilitiesoffice.army.mil/eto/> Technical questions will be sent to the appropriate Technical Points of Contact (TPOC), topic authors, and/or Subject Matter Experts (SMEs) to request clarification of their areas of interest. No discussions are to be held with offers by the technical staff after proposal submission without permission of the Army Contracting Command-Aberdeen Proving Ground (ACC-APG) Contracting Officer.

Funding Opportunity Number: W56JSR18S0001

Closing Date for Applications: March 23, 2023

Army Research Office Broad Agency Announcement for Fundamental Research

United States Dept. of the Army, Materiel Command

This BAA sets forth research areas of interest to the ARO. This BAA is issued under FAR 6.102(d)(2), which provides for the competitive selection of basic and applied research proposals, and 10 U.S.C. 2358, 10 U.S.C. 2371, and 10 U.S.C. 2371b, which provide the authorities for issuing awards under this announcement for basic and applied research. The definitions of basic and applied research may be found at 32 CFR 22.105. Proposals submitted in response to this BAA and selected for award are considered to be the result of full and open competition and in full compliance with the provision of Public Law 98-369, "The Competition in Contracting Act of 1984" and subsequent amendments.

<https://www.arl.army.mil/www/default.cfm?page=8>

Closing Date for Applications: March 31, 2022

Behavioral Basis of Chronic Pain

National Institutes of Health

The purpose of this funding opportunity announcement is to encourage grant applications from the scientific community on the biobehavioral basis of chronic pain. The focus encompasses the individual phenotype, genotype, and other omic-type assessments and the associated sensory and emotional components that underpin the individual's chronic pain experience. Research relating biology and behavior is needed to better define the individual-specific burden of chronic pain and to better understand the mechanisms underlying differences in pain experiences among individuals afflicted with the same chronic illness. Research objectives include, but are not limited to, those that: 1) optimize approaches for combining phenotypic, omic and behavioral measures that can improve assessment of chronic pain; 2) integrate data from multiple sources, e.g., clinical, imaging, genomics, patient self-report, to develop predictive models of chronic pain relief/exacerbation and guide clinical decision-making; 3) examine associations between phenotype and omic profiles to optimize interventions for condition-specific chronic pain; 4) conceive frameworks that consider the interaction of biology and behavior to understand the trajectory of chronic pain across the lifespan, including consideration of pain-related conditions that arise in childhood; 5) examine biobehavioral-based interventions aimed at reducing functional constraints imposed by chronic pain.

Closing Date for Applications: January 07, 2022

Clinical Trial Readiness for Rare Diseases, Disorders, and Syndromes

National Institutes of Health

Researchers are invited to submit applications for support of clinical projects that address critical needs for clinical trial readiness in rare diseases. The initiative seeks applications that are intended to facilitate rare disease research by enabling effective movement of candidate therapeutics or diagnostics towards clinical trials, and to increase their likelihood of success through development and testing of rigorous biomarkers and clinical outcome assessment measure, or by defining the presentation and course of a rare disease to enable the design of clinical trials.

<https://www.grants.gov/web/grants/search-grants.html>

Funding Opportunity Number: PAR-18-952

Closing Date for Applications: October 25, 2021

From Genomic Association to Causation: A Convergent Neuroscience Approach for Integrating Levels of Analysis to Delineate Brain Function in Neuropsychiatry (R01)

National Institutes of Health

The primary objective of this FOA is to stimulate innovative Convergent Neuroscience (CN) approaches to establish causal and/or probabilistic linkages across contiguous levels of analysis (e.g., gene, molecule, cell, circuit, system, behavior) in an explanatory model of psychopathology. In particular, applicants should focus on how specific constituent biological processes at one level of analysis contribute to quantifiable properties at other levels, either directly or as emergent phenomena. Although not required, it is preferable that applications link at least three levels of analysis and include an emphasis on genetics. The projects under this FOA will develop novel methods, theories, and approaches through a CN team framework, bringing together highly synergistic inter/transdisciplinary teams from neuroscience and the orthogonal fields of the physical sciences (e.g., data/computational science, physics, engineering, mathematics). Successful teams will combine, expand upon, or develop conceptual frameworks and theoretical approaches, and build explanatory computational models that connect contiguous levels of analysis. Such frameworks, theories, and computational explanatory models should be validated through experimental approaches to elucidate biological underpinnings of complex behavioral (including cognitive and affective) outcomes in psychopathology. Additionally, a goal of this program is to advance research in CN by creating a shared community framework of resources which may be used by the broader research community to further research. A successful team will be expected to have a robust plan for sharing data and resources.

Closing Date for Applications: September 07, 2020

HEAL Initiative: Translational Devices to Treat Pain (UG3/UH3 Clinical Trial Optional)

National Institutes of Health

The purpose of this Funding Opportunity Announcement (FOA) is to encourage investigators to pursue translational activities and clinical trials to treat pain with innovative, targeted, and non-addictive diagnostic and/or therapeutic devices that improve patient outcomes and decrease or eliminate the need to prescribe opioids. Activities supported in this program include implementation of clinical prototype devices, non-clinical safety and efficacy testing, design verification and validation activities, obtaining an Investigational Device Exemption (IDE) for a Significant Risk (SR) study or Institutional Review Board (IRB) approval for a Non-Significant Risk (NSR) study, as well as a subsequent small clinical trial (e.g., Early Feasibility Study). The clinical trial is expected to provide information about the device function or final design that cannot be practically obtained through additional non-clinical assessments (e.g., bench top or animal studies) due to the novelty of the device or its intended use. This is a milestone-driven cooperative agreement program and will involve participation of NIH program staff in the development of the project plan and monitoring of research progress. This FOA will leverage Public-Private Partnership Programs (PPP) initiated under the NIH BRAIN Initiative, the Office of Strategic Coordination The Common Funds Stimulating Peripheral Activity to Relieve Conditions (SPARC) Program, and the HEAL Initiative.

Closing Date for Applications: February 21, 2021

High-Priority Areas for Research Leveraging EHR and Large-Scale Data

National Institutes of Health

This Funding Opportunity Announcement (FOA) encourages research project grant (R01) applications to leverage large-scale, real-world data from electronic health records (EHRs) from a variety of systems (e.g., the Department of Defense (DOD), Department of Veterans Affairs (VA), Centers for Medicare and Medicaid Services administrative claims, as well as public or private health care systems and networks) to understand risk, onset, course, and impact of treatments and services for mental and neurological disorders and to identify promising new mental health and neurological disorders research. There is particular interest in leveraging EHRs and administrative data to 1) understand and improve the treatment of post traumatic psychopathology, including posttraumatic stress disorder, depression, traumatic brain injury (TBI), and risk for suicide; and 2) characterize post-trauma

multi-symptom recovery trajectory patterns of TBI, that may include post-traumatic stress disorder, depression, cognitive impairment, pain, substance abuse disorder and risk for suicide. NIMH also invites innovative approaches to use EHR and administrative data to understand risk, onset, course, and impact of treatments and services for mental disorders more broadly.

Closing Date for Applications: September 07, 2021

Human-Centered Intelligence, Surveillance & Reconnaissance (ISR)

Leveraged Science and Technology (S&T) Program

Air Force -- Research Lab

This effort is an open 2 Step BAA soliciting innovative research concepts for the overall mission of the Human-Centered Intelligence, Surveillance, & Reconnaissance (ISR) Division (711 HPW/RHX). The overall RHX research objective is to develop human-centered S&T that enables the Air Force to more effectively execute the ISR mission. This research objective is dual natured: (1) improve the capability to identify, track and locate human targets in the ISR environment and (2) improve the performance of humans who process, exploit, analyze, produce, and disseminate the ISR data and information. Human-centered ISR research encompasses three major research areas: (1) human signatures, (2) human trust and interaction and (3) human analyst augmentation. The human signatures research develops technologies to sense and exploit human bio-signatures at both the molecular level and macro (anthropometric) level.

Closing Date for Applications: February 10, 2023

Innovative Molecular Analysis Technology Development for Cancer Research and Clinical Care (R43/R44 Clinical Trial Not Allowed)

National Institutes of Health

This Funding Opportunity Announcement (FOA) encourages Small Business Innovation Research (SBIR) grant applications from small business concerns (SBCs) proposing research for commercial development of novel cancer-relevant technologies. The proposed research projects are expected to focus on the development of highly innovative technologies that improve molecular and/or cellular analysis of cancer with a significant likelihood for either overcoming persistent challenges or obstacles or opening entirely new fields for cancer research or clinical care. Applications should specify milestones relevant to both the development and commercialization of these technologies. This FOA complements the goals of the NCI's Innovative Molecular Analysis Technologies (IMAT)

program by facilitating the path towards technology commercialization. Prior participation in the IMAT Program is not required for eligibility for this FOA. Applications are expected to indicate the significant attributes and advantages of the proposed technology over currently available technologies and conventional approaches.

Closing Date for Applications: January 07, 2021

Marijuana, Prescription Opioid, or Prescription Benzodiazepine Drug Use among Older Adults (R01)

National Institutes of Health

Despite significant scientific advancements made in substance use disorder research over the last century, the causes and consequences of drug use in later life remain poorly understood. The intent of this funding opportunity announcement is to support innovative research that examines aspects of marijuana and prescription opioid and benzodiazepine use in adults aged 50 and older. This FOA encourages research that examines the determinants of these types of drug use and/or characterizes the resulting neurobiological alterations, associated behaviors, and public health consequences. This initiative will focus on two distinct populations of older adults: individuals with earlier onset of drug use who are now entering this stage of adult development or individuals who initiate drug use after the age of 50. Applications are encouraged to utilize broad methodologies ranging from basic science, clinical, and epidemiological approaches.

<https://grants.nih.gov/grants/guide/pa-files/PA-17-196.html>

Closing Date for Applications: May 07, 2020

Mechanistic Investigations of Psychosocial Stress Effects on Opioid Use Patterns (R01- Clinical Trial Optional)

National Institutes of Health

This funding opportunity announcement (FOA) invites innovative research to characterize the consequences of psychosocial stress on affective/cognitive functioning and/or pain processing as it relates to opioid use disorder (OUD). This FOA encourages research that elucidates mechanisms of action and determinants of vulnerability and/or resilience by which psychosocial stress influence OUD trajectories. Research using basic or clinical approaches is appropriate.

Closing Date for Applications: September 07, 2020

Mechanisms of Disparities in Etiology and Outcomes of Lung Cancer in the U.S.: The Role of Risk and Protective Factors

National Institutes of Health

This initiative will support exploratory and developmental multidisciplinary research to understand the underlying causal factors and mechanisms that result in lung cancer disparities in the U.S. health disparity populations.

<https://grants.nih.gov/grants/guide/pa-files/PA-19-019.html>

Closing Date for Applications: March 04, 2021

Microbial-Based Cancer Therapy – Bugs as Drugs

U.S. Department of Health and Human Services

The overall purpose of this funding opportunity announcement (FOA) is to stimulate the development of novel microbial-based cancer therapies, especially for conditions where conventional cancer therapies are inadequate, such as poorly vascularized, hypoxic, solid tumors, dormant or slowly dividing cells resistant to current interventions, and brain tumors. Utilizing bacteria, archaeobacteria, bacteriophages and other non-virus microorganisms, this initiative will support research projects designed to study the underlying mechanisms of the complex interactions between microorganisms, tumor, and immune system.

<https://www.grants.gov/web/grants/search-grants.html>

Opportunity Number: PAR-19-194

Closing Date for Applications: May 7, 2022

Multilevel Interventions in Cancer Care Delivery: Follow-up to Abnormal Screening Tests (R01 Clinical Trial Optional)

U.S. Department of Health and Human Services

This Funding Opportunity Announcement (FOA) encourages applications that develop and test multilevel interventions to improve follow-up to abnormal screening tests for breast, cervical, colorectal, or lung cancers. Improving follow-up to abnormal screening tests is dependent on factors at the patient, provider, clinical team, clinic, healthcare institution, or community setting levels.

Appropriate applications for this FOA should propose to intervene at two or more levels, and measure outcomes at three or more levels, while accounting for interactions that occur between and across levels.

Closing Date for Applications: January 07, 2021

Multi-Site Studies for System-Level Implementation of Substance Use Prevention and Treatment Services (R01)

National Institutes of Health

As part of the Collaborative Research on Addiction at NIH (CRAN) initiative, NIDA, NIAAA, and NCI join to issue this FOA. The purpose of this FOA is to support the development and testing of interventions, models, and/or frameworks that examine system-level implementation of evidence-based interventions, guidelines, or principles to improve the delivery, uptake, quality, and sustainability of substance use prevention and treatment interventions and services.

<https://grants.nih.gov/grants/guide/pa-files/PA-16-455.html>

Closing Date for Applications: November 13, 2020

Pediatric Critical Care Conferences (R13 Clinical Trial Not Allowed)

Department of Health and Human Services – National Institutes of Health

The purpose of this Funding Opportunity Announcement (FOA) is to invite applications for multidisciplinary national conferences that will inform care and facilitate research for major issues in pediatric critical care medicine. Given the nascent stage of development, the small diverse patient populations, and the rapid expansion of the field, conducting research and establishing best practices in pediatric critical care is challenging. National conferences that convene experts from across the country hold the potential to establish the frameworks necessary to overcome these obstacles. It is anticipated that such conferences will foster collaboration among different clinical disciplines, geographically, and culturally diverse institutions and medical centers, professional organizations and NIH Institutes.

Pregnancy in Women with Disabilities (R03)

National Institutes of Health

This funding opportunity announcement (FOA) issued by the Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD) encourages small research project grants (R03) investigating the incidence, course, and outcomes of pregnancy among women with disabilities. Areas of interest also include studies to inform preconception and antenatal counseling and strategies for addressing barriers to prenatal care, and management of pregnancy, the puerperium, and the transition to parenthood in order to optimize outcomes for

women with physical, intellectual and developmental, and/or sensory disabilities and their families.

<https://grants.nih.gov/grants/guide/pa-files/PA-17-451.html>

Closing Date for Applications: September 07, 2020

Pilot and Feasibility Clinical Research Grants in Urologic Disorders

National Institutes of Health

This Funding Opportunity Announcement (FOA) is to support Exploratory/Developmental Research Grants (R21) that propose small scale or pilot and feasibility clinical and translational research studies, including epidemiological studies or clinical trials related to urologic disorders research. Studies should address important clinical and translational questions that are potentially of high clinical and public health impact. It is anticipated that some projects supported by these grants may lead to full-scale clinical studies including diagnostic strategies, epidemiological studies, or randomized clinical trials of prevention, diagnosis or treatment of urologic disorders.

Providing Research Education Experiences to Enhance Diversity in the Next Generation of Substance Abuse and Addiction Scientists

National Institutes of Health

The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The over-arching goal of this National Institute on Drug Abuse (NIDA) R25 program is to support educational activities that encourage individuals from diverse backgrounds, including those from groups underrepresented in the biomedical and behavioral sciences, to pursue further studies or careers in substance abuse and addiction research.

Research Options for Space Enterprise Technologies (ROSET)

U.S. Air Force, AFRL DET 8

The Air Force Research Laboratory (AFRL) Space Vehicle Directorate (RV) is interested in receiving proposals from all offers to advance state of the art technology and scientific knowledge supporting all aspects of space systems including payload adapters, on-orbit systems, communications links, ground systems, and user equipment. Efforts will include basic and advanced research, advanced component and technology development, prototyping, and system

development and demonstration and will span the range from concept and laboratory experimentation to testing/demonstration in a relevant environment. Specific tasks include design, development, analysis, fabrication, integration, characterization, testing/experimentation, and demonstration of hardware and software products.

Secondary Analyses in Obesity, Diabetes and Digestive and Kidney Diseases (R21 Clinical Trial Not Allowed)

National Institutes of Health

This Funding Opportunity Announcement (FOA) encourages R21 applications that propose to conduct secondary analyses of existing data sets relevant to diabetes and selected endocrine and metabolic diseases including thyroid, parathyroid and Cushing's diseases and acromegaly; and genetic metabolic disease including cystic fibrosis, lysosomal storage diseases, and disorders of the urea cycle, amino acid metabolism and metal transport where the focus is on peripheral metabolism or organ function; obesity, liver diseases, alimentary GI tract diseases and nutrition; kidney, urologic, and hematologic diseases. The goal of this program is to facilitate research that explores innovative hypotheses through the use of existing data sets or data, for which the primary goal is data analysis and not preparation/presentation of data.

Rapid Outcomes from Agricultural Research (ROAR)

Foundation for Food and Agriculture Research

The Rapid Outcomes from Agricultural Research (ROAR) program provides nimble deployment of funds to support research and outreach in response to emerging or unanticipated threats to the nation's food supply or agricultural systems. ROAR participants, including but not limited to university researchers, farmers or producers, commodity groups and government officials, may apply for funds in response to an outbreak for development of diagnostics, monitoring and mitigation strategies. The ROAR program fills the gap until traditional, longer-term funding sources can be secured. Up to \$150,000 per one-year grant is available from FFAR, with the requirement that recipients provide equal or greater matching funds from non-U.S. federal sources.

Cow Creek Band of the Umpqua Tribe Foundation Grants

Cow Creek Band of the Umpqua Tribe of Indians

Like many Native American cultures, the Cow Creek Band of the Umpqua Tribe of Indians has a long time-honored tradition of giving to their communities. In 1997 the Tribe formalized this tradition of philanthropy by establishing a grant making Foundation. The Foundation makes grants to nonprofit 501©3 organizations for the benefit of the public within Coos, Deschutes, Douglas, Jackson, Josephine, Klamath, and Lane counties. Primary categories of interest are: basic needs (food and emergency support), abuse prevention and intervention for children and adults, education (early childhood education and parent education, vocational education and job training, after school programs, positive youth development, and arts education), health and wellness, and community support. The mission of the Cow Creek Umpqua Indian Foundation is to offer assistance in youth education and programs, strengthening the home and family, and in general add to the quality of life for people in the community.

Good Neighbor Grant Application

Ford Family Foundation

The Ford Family Foundation works to provide small grants to organizations in response to unexpected needs or simple projects. These grants are highly competitive and limited. A shorter application is used, and the requests are reviewed by staff regularly. We give priority to short-term grant requests for

simple projects, unforeseen emergencies that interrupt programming or services, and one-off events or activities.

Closing Date for Applications: Rolling

Nike Community Impact Fund

Oregon Community Foundation, Nike

Nike believes in the power of sport to unleash human potential and build community, and fuels this belief through Made to Play, its commitment to getting kids moving through play and sport so that they can lead healthier, happier and more successful lives. The Nike Community Impact Fund (NCIF) supports grassroots organizations (nonprofits, community centers and local schools) to get kids moving, bringing the benefits of sport to their communities, giving kids an opportunity to fall in love with sport and physical activity, and creating stronger communities where play, sport and physical activity are a highly-valued part of everyday life. NCIF is an innovative approach to grant-making that engages a committee of Nike employees to advise where grants are awarded where they live and work.

Oregon Immigrant and Refugee Funders Collaborative

Oregon Community Foundation, the Collins Foundation, the MRG Foundation, the Meyer Memorial Trust Foundation and the Pride Foundation

The purpose is to create a coordinated and collaborative funding approach to address issues of immigration and refugees in the state, and to support local organizations responding to these issues. The Collaborative may choose to consider application requests using various methods: a pooled fund, a combination

of pooled and aligned funds, or aligned funds only but always in general alignment with eligible areas of support described in this collaborative framework.

Closing Date for Application: Rolling

The Collins Foundation Grants

The Collins Foundation

The Collins Foundation seeks to be a diverse and inclusive organization and racial equity is a high priority in our grant making. Further, we promote inclusion for all

communities that are systematically denied access to resources and the opportunity to make decisions on matters that affect them, particularly people of color, immigrants and refugees, people with disabilities, LGBTQ people, low-income individuals and families, and rural communities. More information on the Foundation's equity commitment can be found in our 2015 Plan for Diversity, Equity, and Inclusion. We are committed to working toward a more equitable Oregon through our grant making in urban and rural communities across the state. We understand that organizations, including The Collins Foundation, are at different stages in their pursuit of equity based on their history, leadership, and community and we are interested in supporting the learning and growth of our grantees throughout Oregon.
