# Enrollment Definitions

---

The Oregon University System (OUS), like all other higher education institutions, employs several different definitions in counting enrollment. The various definitions serve different purposes: budget preparation, workload evaluation, federal reporting, single-point snapshots, and description of OUS's provision of educational services. Additional definitions are provided in the Glossary.

## **Headcount Enrollment**

Headcount enrollment represents the number of individual students enrolled in credit courses, regardless of course load. Historical enrollment has generally been expressed in terms of fall headcount. National comparisons of enrollment are most often made on the basis of fall headcount.

### **Including extended enrollment**

In summer 1999, OUS began including extended enrollment in its reports, including enrollment in continuing education courses, web-based courses, contract courses, and other off-campus courses. For historical purposes in this Fact Book, we have gone back to 1991 to have comparable enrollment headcounts that include extended enrollment.

### **Historical**

For long-term comparisons, however, we sometimes tabulate fall term headcounts that include students only if they enroll for at least one regular, or in-load, course (historically, this was called "base enrollment"). In such tabulations only, students enrolled exclusively in extended enrollment courses are excluded.

### **Total unduplicated headcount**

Total unduplicated headcount provides a more comprehensive picture of student enrollment. This number reflects the total of all students, counted only once, enrolled in an OUS institution during any of the four terms of the year, regardless of course load. Both regular and extended campus enrollments are included.

## **Student Full-time Equivalent (FTE)**

The student full-time equivalent (FTE) translates credit into enrollment, showing how many students it would take to produce the total credit-bearing activity of a campus if each student took exactly a full-time load. Calculation of the student full-time equivalent varies depending on the level of the student. The full-time equivalent for an undergraduate is assumed to be 15 term credit hours (or 45 annual credit hours). For master's and professional level students, the divisor is 12 term credit hours (36 annual credit hours), and for a doctoral student, it is 9 term credit hours (27 annual credit hours).

### Enrollment by Racial/Ethnic Group, Fall 2001 through Fall 2011 (Minorities Grouped in a Single Category)

In fall 2010, federal methodology for collecting and reporting race/ethnicity changed (see the Glossary entry under “race/ethnicity” for a description of these changes). Most notably for this table, many students who previously were reported as “unknown race/ethnicity” are now associated with a specific ethnic or racial category.

<sup>1</sup> The freshman participation rate is the ratio of OUS first-time freshmen from Oregon high schools (regardless of year of graduation) to Oregon high school graduates of the previous school year. For example, OUS fall 2001 resident freshmen new from high school comprised 24.1% of the June 2001 Oregon high school graduates.

Before 1994-95, counts exclude extended enrollment students.

Note: Student budgets are based on full-time enrollment at 15 credit-hours/term and do not include non-mandatory fees or special program-specific fees. Actual budgets will vary depending upon program of study, dependency status, and housing situation. WOU tuition is based on the Tuition Promise, which guarantees that the per-credit tuition rate for undergraduate students will not increase for Oregon residents.

NOTE: Rates for 2011-12 are taken from fall term and may be subject to change after winter and spring terms.

Starting in 2004-05, full-time tuition represents 15 credits for undergraduates and 12 credits for graduates. Prior to that, there was a full-time tuition plateau, commonly 12-18 credits for undergraduates and 9-15 credits for graduates.

<sup>1</sup> Tuition and fees include: tuition, universal resource, building, incidental, health services, and recreation center fees.

<sup>2</sup> Beginning in 2007-08, the table uses the Western Promise tuition rate for resident undergraduates at WOU.

<sup>3</sup> In accordance with OAR-010-0081, Eastern Oregon University's nonresident rate is the same as the resident rate.

<sup>4</sup> In 2006-07, UO rolled resource fees for law into tuition rates.

<sup>5</sup> In 2008-09, PSU and SOU rolled programmatic and universal resource fees into tuition rates.

<sup>6</sup> In 2009-10, OSU rolled programmatic and universal resource fees into undergraduate tuition. UO rolled all universal resource fees and most programmatic fees into tuition for graduate students.

<sup>7</sup> In 2010-11, UO rolled all undergraduate programmatic fees into tuition and OSU rolled all graduate programmatic and universal resource fees into tuition. At WOU, 2010-11 rates do not reflect the winter term increase in fees for the new recreation center.

<sup>8</sup> In 2011-12, EOU instituted a separate tuition rate for international students.

<sup>2</sup> Faculty distribution for each university is standardized to 35% professors, 30% associate professors, 30% assistant professors, and 5% instructors. Where no instructors are reported, the calculation of the all-ranks average uses the average compensation of instructors for all Category IIB four-year public institutions, as published in ACADEME. Source data are reported by universities on November 30th of each academic year; therefore, increases awarded after November are not included.

<sup>3</sup> Category IIB institutions are used to find the average salary for public baccalaureate universities.

In 2010, our method for calculating expenditures on sponsored research was adjusted: the calculation now includes indirect cost recovery and federal support to statewide public services, and it now excludes gifts and student work-study aid. The adjustment was applied across all the years reported in the present table, but Fact Books published before 2010 do not incorporate the adjustment.

<sup>1</sup> Restricted funds expenditures. Excludes student aid and gifts. Includes sponsored research, teaching/training grants, student services grants, library grants, and similar support.

Notes: (1) The State of Oregon General Fund comprises all general fund appropriations for the biennium. (2) The figures for OUS operations from 1987-89 through 1993-95 depart significantly from the 2010 Fact Book. Oregon Health & Science University was part of the university system until 1995, and the 2010 Fact Book included OHSU's appropriation in the system total during those years. However, for the sake of comparability between earlier and later years, the 2011 Facts and Figures removes OHSU's appropriation from all years. (3) The 2011 Facts and Figures also reconciles OUS General Fund appropriations to audited financial statements for the university system, something that was not done in the 2010 Fact Book. The reconciliation results in small corrections to the figures for 1997-99 and later years. (4) Biennia 2007-09 and 2009-11 include federal ARRA funds as General Fund offset.

Oregon University System  
2011 Facts and Figures

**GLOSSARY**

# Glossary

---

## **Academic year**

The year beginning with summer term and ending with spring term.

## **Admitted student**

Student admitted to a degree program (e.g., bachelor's, master's).

## **All ranks average salary**

The weighted average salary of professors, associate professors, assistant professors, and instructors. To provide a more comparable all ranks average in peer salary comparisons, the distribution by faculty rank is standardized to reflect 35% professors, 30% associate professors, 30% assistant professors, and 5% instructors.

## **Applied**

Student who applied for admission to an OUS degree program.

## **Attrition rate**

The percentage of entering freshmen who have not graduated and who are no longer enrolled at an OUS institution.

## **Average faculty salary**

The average salary of full-time 9-month and 12-month instructional faculty. Salaries of 12-month faculty are converted to a 9-month basis by multiplying the salary by .8182.

## **Base enrollment**

Enrollment in regular (i.e., in-load) credit courses. Excludes enrollment in summer session, continuing education, or remedial courses.

## **Certificate**

A formal award, distinct from a degree, certifying the satisfactory completion of an instructional program or course of study. Within the Oregon University System, most certificates are postbaccalaureate awards, though OHSU also awards post-master's certificates, first-professional certificates, and postsecondary certificates of at least one but less than two years of college study.

## **Completer**

Student who completed a course of study and received a diploma (high school) or a degree (college).

## **Consumer Price Index (CPI)**

The Portland Consumer Price Index, used in all CPI data reported here. Effective in 1998, the geographic area covered by the Portland-Vancouver CPI was expanded to include the Salem Metropolitan Statistical Area (MSA).

## **Credit hour enrollment**

The credit hour value of a course or courses multiplied by the number of students enrolled in the course.

## **Current Replacement Value**

The estimated cost of replacing a structure as determined by each campus physical plant, based on contemporary per unit cost by building type (e.g., housing, library, parking garage).

## **Deferred Maintenance**

Capital upkeep or repair that is not done on a timely basis.

## **Discipline (CIP)**

The academic discipline as reflected in the Classification of Instructional Programs published by the National Center for Education Statistics, for which a "CIP" code is assigned.

## **Distance education**

The delivery of instruction in those circumstances where instructor and students are in different locations, using a variety of technologies and telecommunications networks.

## **Education and General funds**

The portion of OUS universities' or the Chancellor's Office's budget that is devoted to instructional and support services for students and faculty, including managerial and administrative functions needed to provide the services.

## **Educational source**

The school or college the student last attended prior to entering the OUS institution.

## **Enrollment demand**

The estimated number of students who would attend an Oregon University System institution, assuming no budget or financial restrictions or policies that would serve to reduce or increase enrollment. Demand estimates take into account projected numbers of high school graduates and historical freshman participation rates.

# Glossary

---

## **Ethnic group**

See race/ethnicity.

## **Expenditure budgets, non-limited**

Represents expenditures or budgets for those programs and activities for which the Legislature has not set an expenditure limitation. Expenditures in these activities are limited only by the available resources.

## **Extended enrollment**

Enrollment in courses that extend the traditional university curriculum. Such courses include those offered through continuing education as well as many web-based courses, contract courses, and courses offered in other off-campus venues.

## **Faculty**

See Instructional faculty, full-time and Instructional faculty, part-time.

## **Faculty course credits**

See Instructor course credits.

## **Fee category**

Base enrollment category reflecting the type of fee assessed (e.g., resident, nonresident).

## **First-time freshmen**

Students attending an OUS institution for the first time who were admitted on the basis of their high school performance (including those with a limited amount of college transfer credit).

## **Freshman participation rate**

The percentage of newly admitted OUS first-time freshmen from Oregon high schools divided by the total number of Oregon high school graduates of the previous school year.

## **Full Time Equivalent (FTE)**

See instructional FTE or student FTE.

## **General fund, total operating budget**

State of Oregon General Fund resources for use in the operating budget, exclusive of capital construction.

## **Grade point average (GPA)**

Average grade based on a scale of 0 to 4 grade points, where A = 4, B = 3, C = 2, D = 1, and F = 0.

## **Graduation rate**

The percentage of an entering cohort of students who complete a degree within a specified length of time. The common practice, reinforced by the U.S. Department of Education, is to report the percentage of entering freshmen who complete a bachelor's degree within six years.

## **Headcount enrollment, duplicated**

The number of times students enrolled during a multi-term reporting period. For example, a student enrolling in fall, winter, and spring terms of the academic year would have a duplicated headcount of three.

## **Headcount enrollment, unduplicated**

A count of distinct students enrolled during a multi-term reporting period (usually, an academic year). Students who enroll in more than one term during the reporting period are counted only once. However, students having both admitted undergraduate and admitted graduate status in separate terms during the reporting period are counted twice in unduplicated totals.

## **HEGIS**

See IPEDS.

## **High school GPA**

High school grade point average.

## **Independent or individualized study**

Nonformal class arrangements between an instructor and a student for irregular hours of instruction. Includes such classes as dissertation, field experience, internship, practicum, reading and conference, research, student teaching, and thesis.

## **Instructor course credits**

The total credit hour value of courses taught by an instructor, including independent study courses.

## **Instructional faculty, full-time**

Regular faculty with a total institutional FTE of .90 or greater whose primary assignment is instruction (more than .50 FTE in an instructional department). Includes regular faculty on sabbatical leave.

## **Instructional faculty, part-time**

Regular faculty with a total institutional FTE of less than .90 whose primary assignment is instruction.

# Glossary

## **Instructional FTE**

The full-time equivalent (FTE) of ranked faculty, graduate assistants, and other instructors engaged in teaching, based on the portion of each faculty member's workload that was funded from instructional accounts within the Education and General budget.

## **IPEDS**

Integrated Postsecondary Education Data System, part of a series of reports collected annually by the National Center for Education Statistics. Formerly called the Higher Education General Information Survey (HEGIS) prior to 1982.

## **ITFS**

Instructional Television Fixed Services.

## **New Economy Index**

A proprietary index created by the Progressive Policy Institute in an attempt to measure the degree to which state economies operate in the "New Economy." The index is calculated from 29 economic indicators in five categories: knowledge jobs, globalization, economic dynamism, transformation to a digital economy, and technological innovation capacity.

## **Nonadmitted students**

Students enrolled in credit courses in the regular campus program but not admitted to a degree program.

## **Noncredit enrollment**

Offerings aimed at upgrading skills and maintaining licensure, for which degree credit is not awarded. Non-credit enrollment also includes, for example, programs aimed at youths and seniors, conferences, community education and personal development courses, and separate contracts between organizations and the OUS institution(s).

## **Nonresident**

The fee status category of students who are assessed nonresident tuition.

## **Nonresident alien**

A student or faculty member who is neither a U.S. citizen nor a resident alien.

## **OEPP**

Office of Education Policy and Planning. No longer in existence, this office tracked degrees and certificates awarded in Oregon.

## **Organized classes**

Classes with scheduled meeting times and places, and offered for credit. Examples include lectures and seminars.

## **OUS**

Oregon University System. Consists of seven public four-year institutions in Oregon: Eastern Oregon University (La Grande); Oregon Institute of Technology (Klamath Falls); Oregon State University (Corvallis) with a branch campus, OSU-Cascades, located in Bend; Portland State University (Portland); Southern Oregon University (Ashland); the University of Oregon (Eugene); and Western Oregon University (Monmouth). The Oregon Health & Science University (Portland) became an affiliated institution on July 1, 1995.

## **Part-time undergraduate**

For most purposes, and consistent with national definitions, a part-time undergraduate is one who is enrolled in fewer than 12 credit hours per term. Students enrolled in fewer than 9 credit hours may enroll under the OUS Part-Time Fee Policy in certain circumstances.

## **Postbaccalaureate nongraduate**

Students enrolled in a second baccalaureate program who have already received a first baccalaureate, and who pay fees through the Postbaccalaureate Nongraduate Fee Policy.

## **Race/Ethnicity**

Ethnic or racial category with which a person most closely identifies. Reported categories are those listed on the federal IPEDS reports: American Indian or Alaska Native; Asian; Black or African American; Hispanic of any race; Native Hawaiian or Pacific Islander; and White (including people of Middle Eastern origins). When reporting a person who identifies with two or more racial/ethnic groups, students reporting as Hispanic ethnicity are always identified as Hispanic, otherwise the student is reported in the "two or more races" category. These ethnic categories do not include international students, who are reported separately under "nonresident alien." Please note that effective 2010 these race/ethnicity definitions changed from previously accepted racial categories, resulting in a lack of comparability with previous years.

## **Rank (faculty)**

Regular faculty with ranks of professor, associate professor, assistant professor, instructor (including senior instructor), and lecturer.

# Glossary

---

## **Resident**

The fee status category of students who are assessed resident tuition.

## **Retention rate**

The percentage of the freshman cohort either completing the bachelor's degree or still enrolled at an OUS institution.

## **SAT score**

The College Board SAT Reasoning Test score normally required for freshman admission to OUS, represented as SAT-Math, SAT-Critical Reading, and SAT-M+R.

## **SCARF**

Student Centralized Administrative Reporting File, the common database of unit record student data developed and maintained by the OUS Office of Institutional Research.

## **Sponsored research dollars**

Includes sponsored research, teaching/training grants, and library grants. Excludes federal funds associated with land grant university programs.

## **SWOUC**

Southwestern Oregon University Center in Coos Bay.

## **Student budget**

Average student expenditures for tuition and fees, room and board, books and supplies, transportation, and personal expenses.

## **Student Full-time Equivalent (FTE)**

The student full-time equivalent (FTE) translates credit into enrollment, showing how many students it would take to produce the total credit-bearing activity of a campus if each student took exactly a full-time load. Calculation of the student full-time equivalent varies depending on the level of the student. The full-time equivalent for an undergraduate is assumed to be 15 term credit hours (or 45 annual credit hours). For master's and professional level students, the divisor is 12 term credit hours (36 annual credit hours), and for a doctoral student, it is 9 term credit hours (27 annual credit hours).

## **Tuition and fee rates**

The total mandatory charges assessed students for enrolling in the institution, including tuition, universal resource, building, incidental, health service, and recreation center fees. Excludes programmatic resource fees that have not been rolled into tuition.
